Dallas, TX · [aswaanth.k@utdallas.edu](mailto:aswaanth.k@utdallas.edu) · (469) 555-0142 · [github.com/aswaanthk](https://github.com/aswaanthk)

---

*Computer Science junior focused on backend systems and distributed infrastructure, with internship experience shipping production services and a habit of profiling before optimizing.*

## EDUCATION

---

### University of Texas at Dallas

Aug 2023 – May 2027

B.S. Computer Science

GPA 3.82 · Dean's List, 4 semesters

## EXPERIENCE

---

### Software Engineering Intern

Jun 2026 – Aug 2026

Local FinTech Startup

- Built a rate-limiting middleware in Go that cut API timeout incidents by 40%
- Migrated a legacy cron pipeline to event-driven queues, reducing processing lag from 12 minutes to under 90 seconds
- Wrote integration tests covering the payments retry path, catching 3 production-bound bugs in review

### Undergraduate Research Assistant

Jan 2026 – Present

UT Dallas Systems Lab

- Benchmarked task-scheduling algorithms across 6 cluster configurations for a distributed runner
- Co-authored an internal report comparing consistency models for a course-project database engine

## SKILLS

---

Python · Go · C++ · Distributed Systems · PostgreSQL · Docker · Git · Linux
